

# KYLE RAMON G. ZANTE

## PROFILE

I am Kyle Ramon G. Zante and I am actively searching for a job in software, web, and game development. My main interests lie in using PHP Laravel, Python, basic SQL, and game development for web programming. I believe that working in a professional setting will allow me to utilize my skills and gain more knowledge. Moreover, I have a basic understanding of C# and the .NET framework, which enhances my capabilities as a software developer. I have a strong foundation in programming, problem-solving, and team collaboration, which gives me confidence in my ability to contribute and handle challenging tasks. I am eager to learn from experienced professionals in the industry and continue honing my skills. Thank you for considering my application.

## HARD SKILLS

## PROJECTS

- **Ideanaleh Crowdfunding** | Web App | Backend Developer  
2022 – 2023

### Project insights:

Crowdfunding web application platform for IT projects and developers in the Philippines.

### Key responsibilities:

Handle the application's server-side logic and data management, including database schema implementation, integration with third-party services, and authentication and authorization management.

### GitHub:

<https://github.com/0IUwUL/Ideanaleh>

- **Tarheta** | Web App | Backend Developer  
2021

### Project insights:

Project using the CodeIgniter framework that aims to a platform for quizzes and reviewers for students.

### Key responsibilities:

Handle the bulk of the backend functionalities of the project and ensure the MVC model/framework is followed.

### GitHub:

<https://github.com/JayTheBee/tarheta>

- **Enter Zabali** | Game | Sole Developer  
2021 – 2022

### Project insights:

A personal side project involving procedurally generated dungeons and 4 playable characters with unique quirks and abilities. The player is tasked to defeat various monsters and defeat the final boss. The game features interconnected systems that ensure each playthrough differs from the last.

### Key responsibilities:

As the sole developer of the game, I created all of the assets such as the art and sound effects of the game, and ensure that all of the functionality are implemented.

### Demo Link:

<https://therealzakyr.itch.io/enter-zabali>

- **Axie Calculator** | App | Sole Developer  
2021

### Project insights:

A simple python based app that can be overlayed over the game which provides an advantage over the opposing enemy.

### Key responsibilities:

As Provide a simple and easy-to-use app using the tkinter python library.

### Demo Link:

<https://therealzakyr.itch.io/axie-calculator>

- **Crypto Tracker** | Discord Bot | Developer  
2021

### Project insights:

A simple discord bot to track cryptocurrency coins via user-typed queries using the CoinGecko API and the discord bot python library.

### Key responsibilities:

Handling the backend and frontend of the discord bot and ensuring a seamless user experience.

### GitHub:

<https://github.com/krzante/crypto-tracker>

- **Chem Platformer** | Game | Sole Developer  
2021

### Project insights:

A simple platformer game commission using the Game Maker application which follows a character answering chemistry questions in a platformer game set.

### Key responsibilities:

Provide a simple and straightforward game that meets the specification of the client.

### Demo Link:
